

## Protein Plus Spotted at Body Building Competition

Protein Plus Cereal Spotted at "Arnold Classic Bodybuilder Competition". Protein Plus cereal, often featured in a variety of fitness and bodybuilder publications including Fitness, Muscle & Fitness, and Bodybuilder Magazine, had a surprise sighting at an "Arnold Sports Festival" during the Arnold Classic Bodybuilder Competition.

A long time fan of Protein Plus cereal and a bodybuilder himself, tells us he had the exciting chance to hang out with the top competitors and low and behold what does he see but boxes of our Protein Plus cereal and the competitors eating it by the handful. You never know where your favorite Protein cereal will turn up, although we're not surprised. In fact, we started this company selling home made Protein Plus cereal in baggies to bodybuilders working out on the beach at world famous Venice Beach, CA. With 12g of Protein, delicious and crunchy its always been a favorite among the most serious of bodybuilders and just plain fitness enthusiasts.
